SUMMARY

I'm an avid frontend programmer with 1+ year of dedicated experience in studying and working on projects in this realm. My skill set includes HTML, CSS, JavaScript, TypeScript, React and NextJS, allowing me to craft interactive and responsive interfaces across various devices.

SKILLS

- HTML
- CSS
- JavaScript
- ReactJS
- NextJS
- Tailwind CSS
- TypeScript
- BootStrap

WORK EXPERIENCE

Web Developer

Freelance Project / 2024

I was hired by a client who sells 3D wheels for HotWheels cars. The project was developed using NextJS with TypeScript and Tailwind CSS to ensure speed and responsiveness.

I chose to host the project on Vercel, leveraging its integration with GitHub to facilitate the automated deployment process. You can see this project on olavoscalewheels.com

Founder/Developer Social Media zucagram.com

Start up / 2023- Present

An online platform that connects Brazilian immigrants around the world. Developed using React, it facilitates sharing opportunities, personal stories, and donations. Featuring Firebase authentication, efficient data management, and tailored styling for an unparalleled user experience.
